About myself	<p>I am well equipped to pretty much any household and way of living: from living in rural Poland to visiting my Russian family some time ago, being able to display adaptations to the culture very swiftly. Growing up in these various cultures meant I had to take care of younger English speaking and some non-English speaking children with reference to the Russian side (where I was looking after 5 cousins along with my sister).</p> <p>Whilst at school I assisted in helping kids with disabilities, learning impediments and foreign backgrounds throughout their school years helping them become comfortable within their environment by the end of our Tutor-Student mentorship.</p> <p>Tapping a bit into my personal life, I used to compete in sprint canoeing at a high level, along with this I managed a group of kids in training them and mentoring them on becoming better athletes and handing down my life experience to them if I saw they needed guidance/</p>
